CRM
ActiveCampaign

CMS
Umbraco - Episerver - Optimizely

Test management & automation
Saucelabs - Browserstack - TestRail - postman - Maze - Axe DevTool - LambdaTest

Design
Figma - Krita - Blender - Illustrator - Photoshop - Premiere Pro - InDesign - Canva - Affinity - Autodesk Fusion

AI Tools
Claude - Lovable - LM Studio - Google Stitch - Figma Make

PROFILE

Digital product designer working where user experience, engineering and business meet. I turn business goals and user needs into digital products that work in practice and create real value. With a background in QA, I build in quality, usability and technical feasibility from the start. I specialise in UX with human-AI interaction, and have a particular interest in sustainability, personalisation and accessibility. I thrive when I can own a solution from idea to finished concept, working closely with my team.

WORK EXPERIENCE

QA Student Assistant - Part time

IMPACT Commerce Aug 2023 – Sep 2026

- Perform quality control against acceptance criteria, including API, compatibility, regression and acceptance testing.
- Plan tests and releases, automate processes and document test runs.
- Ensure optimal functionality through device and browser testing across platforms.
- Work closely with my own team and the client to ensure both business value and technical requirements are met.
- Support the UX and design team with scoping, design work, accessibility checks and implementation.

Junior consultant - Contract

Cand Dec 2022 - Sep 2025

- Collaborated with companies on short to medium-length assignments, providing cross-disciplinary advice across IT, design, user experience and business understanding.
- Applied both analytical and graphic skills combined with strong communication and presentation.
- Built a deep understanding of clients' industries to deliver targeted solutions.

Graphic & UX student worker - Part time

EM Nordic Jun 2022 - Jul 2023

- Developed marketing and branding material through content design and creative direction, including newsletters, product showcases and visual identity.
- Designed sub-logos and campaign material, including a nationwide poster campaign for a new guitar and graphics for music trade fairs.
- Optimised internal workflows and systems for everyday use.

Playtester

Flashbulb Games May 2022 - Aug 2022

- Tested video games for usability and design issues ahead of releases and updates.

EDUCATION

M.Sc. In Digital Design and Interactive Technologies

IT University of Copenhagen Aug 2024 - Jul 2026

Master's thesis in collaboration with Ældre Sagen: designed a digital product around personalisation, motivation and lasting engagement, owned end to end from research to finished concept, putting users first while delivering business value.

B.Sc. In Digital Design and Interactive Technologies

IT University of Copenhagen Aug 2021 - Jul 2024

Bachelor project: An academic research project on how companies navigate sustainability within digital solutions. I ran the full process from literature review to analysis, including qualitative interviews with sustainability leads from Novo Nordisk, Google and Microsoft.

VOLUNTEERING & COURSES

Volunteer - General Manager and barista

Analog, student organisation Sep 2022 - Jul 2026

Former board member and operations manager. Led a restructuring that redefined the internal roles to make them more attractive and sustainable for future generations.

Language trip, Washington D.C

EF Jul 2015 - Jul 2015

Completed a language course at C2 level and subsequently became an ambassador for EF.
